General Merchant - Red Deer.

## CUSHING BROS. TO BUILD.

A Big Forward Movement By This Company.

Hon. W. H. Cushing was in town on Monday last looking over proposed changes in the business of the firm at this point. The company were so well pleased with the amount of business done in the past year that they determined to extend their operations as soon as possible. Plans and specifications will be asked for at once for buildings to be erected on the lots purchased by the company a few months ago, north of

their present business stand, Gaetz Avenue North. The yards will extend to the railway track, where extensive sheds will be built to hold the heavy material handled by the company, such as lime, cement, coal and other articles. This forward movement by so well known a firm as Cushing Bros. bears out the general impression that nothing can hold Red Deer back; the town has simply got to go ahead from now on by leaps and bounds.

## A PUBLICITY CAMPAIGN.

### THE BOARD OF TRADE ACTIVE.

Land, Titles Office Badly Needed at Red Deer.

The Board of Trade held an important meeting in the City Hotel last Friday evening last. There was a goodly attendance of members and unanimity of feeling prevailed unusual in a Board of Trade meeting in Red Deer. A publicity campaign was decided upon and will be carried out at an early date. The great importance of more Land Titles Offices in the province was also warmly discussed, and Red Deer's needs in this respect was pointed out and steps taken to remedy the evil if possible.

The chair was taken by President George W. Greene, and among members present were F. H. Tallman, S. N. Carscallen, Mayor McKee, H. G. Stone, E. Michener, W. E. Payne, R. L. Gaetz, H. J. Snell, P. Mott, J. Malcolm, C. H. Huestis, R. B. Welliver, H. G. Munro, F. W. Galbraith, G. W. Smith, A. F. Botsford, H. H. Humber, Lee Maupin, and J. A. Carswell.

The president said the time was opportune for a progressive forward movement, and hoped every member of the Board would feel it his duty to help on the good work. Mr. Galbraith had been engaged to act as secretary for three months, but he in reality acted for six months, and it would be the duty of the Board to select a new secretary.

Mr. Gaetz had a strong feeling in favor of securing a publicity agent who would act as secretary of the Board of Trade. This question could now be discussed and he called on R. L. Gaetz to address the meeting.

Before Mr. Gaetz proceeded Lee Maupin was selected to act as secretary of the Board of Trade.

Mr. Gaetz has always favored a forward movement but some had thought the time inopportune last spring. Now he felt we should all make forward movement. He had done a little canvassing and had sent out a circular asking for subscriptions towards a publicity movement, and he had got splendid support and thought we should make an effort now to do something. Mr. Michener and he had visited on a large jobber who visited Calgary with a view to having his firm locate here. He said the time was hardly opportune for a branch at the present time, but when the Alberta Central and C.N.R. passed through the town, they would build here. The gentleman was confident Red Deer would be a great and progressive centre in a few years as he had secured information first of all which led him to believe the Alberta Central Railway would eventually be a part of a trans-continental system to the coast via the Yellowhead Pass. Mr. Gaetz said he would wait on members of the Board of Trade and others and give them an opportunity to subscribe to the fund to carry on the publicity campaign.

E. Michener spoke of the preliminary work necessary preparing for the growth which is bound to come. He had done service for the town at the coast and elsewhere, and though he did not do enough campaign work. He spoke of the benefit of a nice illustrated pamphlet of our town, said pamphlet could be distributed among people coming west of Winnipeg, Moose Jaw and other places. A publicity agent could do a great deal in advertising the town. A gentleman high up in the C.N.R. company informed him that the company intended building their Strathcona to Calgary line touching at Red Deer at once. He considered this an opportune time to start a forward movement in a publicity campaign.

Mr. Michener said a great deal of interest was taken in Red Deer by people in all parts of the Province, and Calgary real estate men intended visiting the town in the near future, to interest themselves in subdivisions. They all were fully convinced of a great future for our town. Mr. Welliver had no objection to the present proposition of a publicity campaign by private subscription and he would help it along. It would take some time to get the work going, and by the beginning of the year things would be in full swing. He would not favor anything but an honest forward movement and that alone. Things had been said about the town that were exaggerated and he did not think that brought results. He believed the Alberta

Central would go on early next year and the C.N.R. would no doubt reach our town, therefore he felt strongly favorable to a forward movement now.

A motion was then submitted to the meeting by R. L. Gaetz and R. B. Welliver authorizing the gathering of subscriptions for publicity purposes and securing if possible, a secretary who would act as publicity agent for the Board. The motion carried unanimously.

Mr. Michener said Latimer, Botterill and Hill of Calgary, had offered to place exhibits of Red Deer district grains and grasses in their office and said Mr. Botterill should be vested with some power to act as agent for Red Deer.

It was decided to send Mr. Botterill his credentials as Vice-President of the Board of Trade, and also power under sanction of the President to act for us in Calgary.

Mr. Welliver said he was going to send a few samples of grain to Latimer, Botterill and Hill in the sheep in the near future.

Mr. Tallman and the President were appointed a committee to furnish the firms in Calgary with samples of grains and grasses.

Mr. Snell spoke of a representative of an English pottery firm who was anxious to locate in Western Canada. If the clay here was satisfactory they might locate here if properly approached. He felt this firm was a good financial firm and could be suited here as our clay was as good, if not better than Calgary or other parts of Alberta. He suggested sending samples of our clay to the firm, as other places had done.

Mr. Welliver moved that H. H. Gaetz and H. J. Snell procure samples of Red Deer clay and forward to the company, which was carried. Some general remarks were made of the clay deposits in this district which were of the best, some being for terra cotta work and others for hardware. There were large deposits down the river of soft clay.

### LAND TITLES OFFICE.

Mr. Welliver read an article with regard to the Land Titles Office in Alberta from the Vancouver Standard strongly urging for more Land Titles Offices.

He hoped the Board of Trade would take the matter up and strongly urged for a Land Titles Office at Red Deer. He thought this Province should have five Land Titles Offices, two were not enough. We should have no difficulty in proving our claim to such an office.

W. E. Payne showed the objection to the present large districts covered by the Land Titles office. Often in such a large territory two or more men are of the same name and these names often become mixed up and caused much annoyance and delay. He spoke of the immense amount of papers that were not absolutely safe from fire in Edmonton. They had more there than they could possibly attend to and protect properly. If a fire got into the registry office the loss might be deplorable. In Ontario almost every county has a registry office.

Mr. Michener said we should make a strong claim for a registry office at Red Deer. He thought the Board should take strong concerted action along the lines laid down.

Mr. Greene showed how the present plan worked out by centralizing all the business at one or two points in the province to the detriment of the rest of the province.

Messrs Payne and Welliver were appointed a committee to take action with regard to the Land Titles Office.

Strong concerted action with the rest of the province for more Land Titles offices was agreed to by the meeting and the Board adjourned shortly after ten o'clock.

We notice that Lachlan Kennedy has moved into his new residence on Second Street South.

P. A. McEwan, V.S., left for the south yesterday where he will be married to-day or to-morrow to a charming young lady of southern Alberta.

## Alberta Championship Football

The final game for the championship of Alberta was pulled off at Edmonton on Saturday last, the competing teams being the Calgary Calles and Lloydminster. A good crowd turned out to witness the game, among them being H. J. Snell and J. Oliver of Red Deer. Both teams have a good reputation as high class players, and each was confident of winning. Play commenced fifteen minutes late and after a few minutes the spectators came to the conclusion that it was going to be a ding dong battle, and they were right; for the first half was about the fastest and most scientific game seen in the province, with Lloydminster having just a bit the best of it, and had their shooting been more true and less erratic, they must have scored, but the Calles remained cool and in some particularly fine passing runs up the field the inside left placed the ball in the net with a lightning shot, but the whistle had previously sounded for off-side so that the goal did not count. The ball travelled from end to end at very fast rate, the outside right of Lloydminster being very fast and getting in some beautiful centres, but the shooting was not to the mark although on one or two occasions the net was only missed by a narrow margin and half time came with no goals being scored for either team. The second half was not quite so fast all the way through as the first half, but the football was just as good, the ball travelling from end to end by good combination play, and in one attack on the Calles goal, Lloydminster came very near scoring with a header, that shook the cross bar but the Calles recovered and after about twenty minutes played the inside left of the Calles scored a fine goal, and came in for a lot of handshaking. Lloydminster were not at all downhearted over this reverse but came, again as strong as ever from the kick off, and came near quelling on one occasion, but the Calles remained steady and towards the finish Lloydminster appeared to tire, and the Calles scored again. The game ending with the score 2-0 in favor of Calgary Calles. It was a typical championship game, both teams playing good clean football from first to last. Lloydminster put in a good half and were well paid to do all they knew how to win, but taking the match throughout they deserved to win for they were just about a goal better than Lloydminster on the days play.

W. H. Hadley, of Red Deer, who had given such good satisfaction in the semi-final, had charge of the game.

## Some Splendid Vegetables.

W. Pearson, of Valley Centre, has been known to grow splendid garden stuff for years, but most people do not realize what he can grow. Last year he sold several hundred pounds of green tomatoes and corn, as well as innumerable pumpkins, squash, cabbages, and all the smaller garden products as onions, beans, cabbages, cauliflowers, etc. While his garden this year was injured considerably by the snowfall on Labor Day, and his tomatoes and pumpkins partly blighted, he still has stuff that any man might be proud of. He has been selling beans, corn, vegetables, marrowfat, and cabbages for the last six weeks, and he has a splendid crop of onions and other vegetables. Mr. Pearson makes a hobby of sowing and producing varieties of potatoes. He has about fifteen different varieties in his garden, some of which he is just trying as an experiment, and he has some splendid yields. A person on seeing his garden, at once remarks on the absence of frost. This is past the middle of September, but his potatoes and marrowfat have been touched by frost, and he says his corn will ripen nicely.

## Piano Contest.

The voting in the piano contest at Drumpton's store stood as follows on Monday evening, September 19th.

Etta Foster	1805
St. Joseph's Convent	1504
Red Deer School	1489
Lady Brigid School	1485
Horn Hill School	852
Clara Usherwood	850
Cross Roads School	496
Springvale School	469
Sons of England	469
Isabel Robinson	111
Indian School	41

Rev. Neil W. Keith, B.A., B.D., of Prescott, Ont., who has been secured as president of the new Presbyterian Ladies' College to be established at Red Deer will leave shortly for the west. It was thought some time ago he would be unable to come but the difficulty has been overcome and he may be expected in a few days.

As will be seen by the report of the School Board in another column the gold medalists in the different standards at the Public School at last examinations are: Standard VIII Miss Mowers Standard VII J. Arthur Carswell; Standard VI, Frank Speakman; Standard V, Douglas Wilton.

## FRANK MOTT,

The Reliable Auctioneer & Real Estate Agent  
GAETZ AVE. NORTH.

In Red Deer the Furniture Trade is certainly increasing and I have a good stock of serviceable goods, and I can furnish anything from a Cottage to a Mansion, and my prices are RIGHT, and my goods are NEW.

Enough if I mention a few of my prices are they are all on the same reasonable basis:—

Iron Beds 4.50 to 13.50, with Spring and Mattress 12.00 to 30.00  
Dresser and Commode with good Bevel Plate Glass from 15.00  
Camp Cots 3.00 and 3.50, Mattresses to fit from 2.00  
Sanitary Couch to extend for bed from 7.00  
Bedroom Tables from 3.00 up  
Extension Tables from 7.25 up  
Kitchen Tables 3.50 up. Kitchen Chairs 65c up

Kitchen Cabinets from 10.00 up  
I have a dozen kinds of rockers to pick from, from 1.00 up  
I have New and Second hand Cook Stoves, Ranges and Heaters

Yes that's enough I know as to THAT branch, but are you looking for a home. Instead of paying rent for the other part of your life, as you admit, you have foolishly done the first part, and now have nothing to show but other people's houses which you have lived in, whereas with the money you have paid rent you might have bought at least one house of your own, had you got busy; invest with me and get a HOME. I am not speaking about a subject I do not understand for I have been through the mill, and, like others who came to Red Deer when I did I might have been paying rent to-day, had I not, as they say, got a move on. If you are looking for something before prices double themselves, (for it will happen in Red Deer as it has happened in other towns in Alberta with less promise than our town), call and see what I have on hand.

Money to loan on Farm Property. Oliver Type-writers for Sale.

## ITEMS OF INTEREST TO EVERY HOUSE-KEEPER.

During the past week, we have placed in stock over \$2000.00 worth of new goods, direct from Canada's leading manufacturers.

We now find that we are overcrowded in many lines. In fact, we have not got floor space enough to show many of our new and important lines.

## MUST HAVE MORE FLOOR SPACE.

And in order to do this, we have decided to make some astonishing big reductions on many lines, in order to clear them out, and give us the room we need.

This small space will not allow us to go into details, or itemize and price each and every article we have to sell, but if you are in need, or thinking of buying anything in either Furniture or Housefurnishings in the near future, we can make it worth your while to make out a list of your needs, bring them to us, and we will have no trouble in showing you how we can save you money by taking advantage of this special offer.

**THE WATERWAYS REPORT.**

(Edmonton Journal)

Reciting the resolution by which the Waterways deal was put through, the Bulletin argues that as the legislature and not the government ordered the commission, the commission has no right to report to anyone except the legislature.

Waiving as a mere detail the fact that the Bulletin has again dropped into the position of official apologist for the Alberta government, there are one or two details in connection with the Bulletin's contention which it fails to make as clear as might be.

The Bulletin says that the commission's business is to report to the legislature for the information of the members thereof, and that it does not belong to the government on any grounds whatever.

The Bulletin, however, fails to mention to which legislature and to which government.

At the time the commission was appointed, it was the Rutherford government that was in power.

The legislature was adjourned for a few weeks for the purpose of giving the commission time to make its enquiry and report.

When the legislature came together they got, not the report which they had assembled to hear, but an autocratic dismissal by a lieutenant-governor, who went outside his duty as a representative of the crown to dabble in local politics. The next change of film in the moving picture scene saw the Rutherford government moved from the field altogether and another government, with a premier who stepped down from the supreme bench to accept office without having consulted the legislature, let alone the country.

The Waterways report was completed and handed in to the man who became premier by choice of the lieutenant-governor.

The legislature does not meet until the 3rd of November. Meantime, two electoral districts have become vacant and two bye-elections are to be held a month previous to the assembling of the house. The report which, to accept the Bulletin's interpretation, belongs to the legislature and not to the government, is kept in the hands of the premier, complete and ready, while the electors of Gleichen and Macleod are asked to elect two members of the legislature without being informed of the contents of the report.

What the public would like to know is: Does the Bulletin and the self-appointed government for which the Bulletin accepts the position of official apologist, have the hardihood to claim that it is a square deal to ask the electors of Macleod and Gleichen to elect or defeat supporters of this government without knowing the contents of the report?

If the answer is "yes," it is at least illuminating as showing the perverted ideas of the Oliver organ and of the government.

If the answer is "no," will the Bulletin please explain how it could be possible to get the report to the members of the legislature or to the electors, who are the representative embodiment of the electors, without giving it for publication.

The Bulletin's contention that the premier has no right to publish the report, is the worst piece of subterfuge that has yet been put up to bolster the claims of the government. It is a clumsy attempt to resort to technicality with such evident intent to deceive that no normal elector could accept it for a moment as being fair, to say nothing of the question of honesty of purpose.

**EDITORIAL NOTES.**

Come to Red Deer. Miss Agnes Deane Cameron says "this is a white man's country in soil, climate and methods of life."

In order that they may be the better prepared to "fight error," the pope has ordered that all

theological students in Catholic colleges be forbidden to read newspapers and periodicals. If the reason is that errors are found in newspapers and periodicals, would it not be wiser to let the students become familiar with the errors which they are being trained to fight?

The late census shows that Greater New York has a population of 4,765,883. It has gained 38 per cent. in ten years. It is thus the second largest city in the world, Paris coming third with 2,769,593, while Tokyo is fourth with 2,188,079. Greater London had 7,429,740 in 1909.

Submarine divers are in some places subject to great danger from sharks and other marine monsters. Hitherto the divers have had only a knife upon which to rely for protection, and this failing, their only hope lies in a speedy ascent to the surface. A German inventor has devised a rifle that can be used under water. It discharges, not a bullet, but a jet of water, the penetrating force of which is sufficient to pierce a steel plate of moderate thickness.

**Mr. Riley is Putting Up a Good Fight.**

At the nomination of Mr. Riley, an Independent for the constituency of Gleichen, Mr. Tregillus, a member of the Liberal party and a prominent member of the U.F.A., was present, and gave Mr. Riley his strongest support.

W. J. Tregillus commenced by saying that he was at the meeting to support Mr. Riley, not as a representative of the U.F.A., of which he is an officer, not as a representative of the Liberal club, of which he is an executive member, but as a man of independent views and a citizen of Alberta.

He believed that Mr. Riley had been faithful to his pledges, and he spoke of him as the only insurgent of the whole legislature who had the courage to keep his word when he, with others, pledged themselves to resign from their seats if the cabinet of the Rutherford administration were not cleaned out absolutely.

There was no clean sweep made in the cabinet when the house-cleaning took place, and Mr. Riley kept his word.

"FAITH, HOPE AND CHARITY."

"And how has the present government gone into power?" asked Mr. Tregillus. "The lieutenant governor called on a chief justice to step in, and what is the chief justice going to do? He tells us to have faith, next he will be telling us to have hope, and then he will ask us to have charity."

The chief justice took the government and looked about him for a cabinet. He chose Warnock of Pincher Creek, and he chose McLean of Lethbridge. But he had to deal with Duncan Marshall, the Hon. Duncan Marshall. What did Marshall do? Perhaps he went to Toronto, saw Dr. Clark, told him a few fairy tales, and Clarke went to Sifton and told him what he had heard. Marshall had bluffed himself safe. Mr. Sifton stepped down from the position of chief justice to that of premier. He doesn't yet know how far he has stepped down."

**VERMILION EXPERIENCES.**

Mr. Tregillus then told of some of his experiences in the recent Vermilion election. He told how the independent vote went almost solid for Clark, and how the ignorant vote was bullied and influenced, and in some cases perhaps purchased. He said Peter Gunn, M. P. F. for Lac St. Anne, was there working with influences—some drinks, some silver—and how a dominion senator was there, walking around with his little black bag, "and he was not delivering lectures either."

He said Arch. McLean was selected for the cabinet, not because of particular ability, but because he was assured of reelection. He then made a few remarks about the premier. He said the latter had not made a marked success of his own private business, though he had made a pretty good judge. He asked if such a man was capable of administering the business of the province?

**DEALT WITH DUNCAN.**

"And what of the Hon. Duncan Marshall?" he asked. "The man who occupies perhaps

the most important position in the province, the minister of agriculture; a position that is the very heartbeat of an agricultural province, a province that needs the best man obtainable. Is Duncan Marshall capable of holding the position? He is only a politician and not one of a high order at that. They tell me that in Ontario he could not secure the position of poundkeeper. I do not believe he could secure that position in Ontario today; but he is the minister of agriculture of Alberta. Neither he nor the premier have outlined their platform."

He said that both Sifton and McLean had been heard to make remarks disparaging to Marshall, and he asked if the electors thought the government could run smoothly with the cabinet ministers pulling against each other.

Of Attorney General Mitchell he said he had, in a night, stepped up to the position he now occupies, and he said he believed that if the province did not guard the bench and bar it would be very sorry.

"Are these men good enough?" he asked. "Some of them are like the Irishman, able to stand anything but temptation. Are these good men? I do not believe they are. They do not want Mr. Riley; but we want men of the stamp of Riley, and he will go back."

**Local and General**

Dr. Denovan, of Stettler, was in town Thursday.

W. Postill was in town looking up old friends last week.

W. H. Hadley was referee of the championship game, Lloydminster vs. Caledonia, Saturday last at Edmonton.

Mrs. M. J. Manning is visiting friends in Ontario.

Reg. Welton has purchased from Chas. Cruickshank the house occupied by Mr. Tait on McLeod street.

Mrs. Heenan, of Blackfalds, was the guest of Mrs. E. W. McGee last week.

The Indian Industrial School opened for the fall term Monday last.

Mrs. (Rev.) Jas. Woodsworth, of Winnipeg, and Miss Woodsworth are the guests of Mrs. R. B. Woodsworth.

Misses Myrtle and Grace Landman have returned from a visit to friends in Saskatoon.

Mrs. Rondo has returned to her home in New Westminster, B.C.

Mr. Lovelace, who has been in charge of the eastern survey party of the Alberta Central, has been appointed in charge of a survey party on the Pincher Creek, Cardston and Montana railway, and left to-day for his new work in south-western Alberta.

The Alberta Central has now its preliminary location made to White Bear Lake, 330 miles east, and will not survey any more this fall.

To avoid the rush on the last few days of this month to take advantage of the discount on taxes, the Secretary-Treasurer will accept at any time now, accepted cheques for taxes made payable on September 30, on which date receipts will be made out and mailed.

The Red Deer club had a most interesting meeting Thursday evening. It was decided to have an opening meeting in the club's new premises at an early date, when some leading citizen will probably deliver an address.

Mr. James Bower returned on Monday from Vancouver, where he had been appearing before the Railway Commission on behalf of the U.F.A. in co-operation with the Vancouver Board of Trade in protest against the inter-provincial freight rates of the C.P.R.

Big values in Flannelettes, Wrapperettes, Shirtings, Table Linen and all staple Dry Goods.

## OUR GROCERY DEPARTMENT

can well be placed as one of our leading departments. We carry only first-class, good, wholesome Groceries, and our prices are always right.

This department is gaining trade every day, and is making friends for us every hour. Phone 48, and try us for values and prompt deliveries.

## Watson's UNDERWEAR

THE weakest parts in most underwear are made the strongest in Watson's. At the crotch, and the sides where the trouser pockets rub, are where most underwear wears quickest. In these spots Watson's is reinforced to resist such wear without being heavy, clumsy or irritating.

Watson's, with its perfect, snug, permanent shape, is made of Cotton, Combed Yarns, Lisle, Mercerized, Silk, etc. They come in sizes 32/30 to 46/44.

We have handled Watson's underwear for many years, and do not hesitate to tell you that you simply cannot get better value at the price.

Come in and see us to-day—and we'll tell you more about Watson's underwear, and show you the many different styles.

# WOODLANDS!

Increase in Value; Prices Going Up.

The old road up the hill to the north is to be closed. The new road will bear to the west along the side hill, and turning north, connects with road through subdivision.

Woodlands subdivision is on Section joining town. Divided into 5-acre blocks. High bench land; rich, deep, black loam. Land to suit anyone; clear stretches of meadow; groves of trees; Park-like land. For the home maker this is a rare chance. All the health and freedom of the country; all the privileges and advantages of the town. Splendid location for poultry raising or market gardening. For the investor seeking a substantial subdivisional proposition, it is here. All these Lots have two roads, and some have three. They will cut up favorably into building lots. One of these 5-acre blocks will give 35 to 65 building lots. Only 15 minutes walk from town.

Prices—From \$90 per acre. Terms—One-third down, one-third in 12 and 24 months. Inspection invited. Guide provided.

Mrs. A. R. Stent and Fred L. Ray, Props.  
Greene & Payne, Trustees.

WEDNESDAY, SEPT. 21st, 1910.

## WESTERN FARMERS' PROTEST.

The Economist of London, Eng., is a financial weekly journal of high repute. It is a journal of strong free trade views. In its issue of August 27th, it publishes a letter from Edmonton, Alberta, in which it discusses Sir Wilfrid's Laurier's troubles in his western tour. In the course of this letter the correspondent of the Economist says:

"Sir Wilfrid's position is unfortunately vulnerable. When the Liberal party was in opposition, it promised to eliminate every particle of protection from the Canadian Tariff and introduce free trade, 'as they have it in England.' Sir Wilfrid toured the West on the subject, and gave his personal assurance that this should be done. The farmer delegates now dig up these old speeches of his and bluntly ask him to live up to them, or they disintegrate the Liberal platform of 1893, and warn him that he and his Liberal friends have broken faith with the people. The Liberal farmers' articles on the free list and reduced the duties on others, but the reduction has in many instances been nullified in whole or in part by increases in the valuation of the imported article under the Dumping Act, a Liberal measure. The operation of the tariff renders the tariff higher than it appears to be. For example, the duty on bugles is 35 per cent, but the Customs House fixes the value of every imported American bugle at \$40, though the true value may be only \$30. Similarly, while the duty on the larger farm implements, such as binders and mowers, was reduced by the Protectionist Conservative Government from 35 to 17 1/2 per cent, the excessive valuation now imposed upon American binders greatly diminishes the amount of the apparent relief."

Later in his letter the correspondent of the Economist adds:

"There is no gainsaying, of course that the Liberals have failed to reform the tariff in the root and branch manner promised. Taken all around, the reductions they have made are insignificant, and delegation after delegation hammers this into Sir Wilfrid."

## DON'T BE A KNOCKER.

One knocker can tear down more than three boosters can build up in your town. People are always more willing to circulate a damaging story than to tell something good—so when you get down to the bottom of things, boosting your business or your own town is pretty largely a personal matter.

If you know something real mean about your competitor, just sit down and write it all out just as though you were writing a letter, place it in an envelope and do not look at it again for a week—then take it out and read it all over carefully, and see how little mean and acrid it makes you feel to think that you wrote that thing. Then just use the same principle when talking about people; if you know something that certain people would delight in hearing and telling just keep it to yourself; it will do you a lot of good.—Ex.

The Ridgeway Dominion, a newspaper edited by a Conservative member of the Ontario Legislature, recently dwelt trenchantly with the low tariff pretences of the Liberals. "What is the use of it," it asks of the Eastern Liberal newspapers writing nice little paragraphs about lower tariff and free trade and recalling the time when nearly all Liberals are in agreement in considering a moderate tariff best for Canada. That good old time ceased to exist from the hour the party took office in 1896."

The Dominion goes on to recall

George A. Bertram, of Toronto, an assurance was quietly given to the manufacturers that no matter what the Liberal leaders and the Liberal newspapers might promise, no harm would be done them if the Liberals won. The Dominion continues: "Sir Wilfrid surrendered to the protectionists in 1896, and the proof of it is found in many things that occurred then and since. Hon. David Mills, an honest low tariff man, was excluded from the cabinet until after the 'revision' of 1897, and the bargain made with the manufacturers carried out, and it was safe to admit him and stop the clamor of the old Liberals at his exclusion. Sir Richard Cartwright was not taken in until he consented to be muzzled. Tariff tinkering since had been in the interest of the manufacturers and the bounties have been continued."

And it further goes on: "The manufacturers, or at least the great majority of them, Grit and Tory, favor the present men in power for many reasons. They get what they want in the way of duties, drawbacks, bounties and bounties, and of course the greater the expenditure on all kinds of public works the better for them and the better for the army of factories and contractors and the still greater army of camp followers behind them."

The Dominion goes on to urge a real policy of lower duties and of disregard of "the interests."

## EDITORIAL NOTES.

Watch Red Deer grow!

Nothing can prevent Red Deer forging ahead now.

"The most beautiful town in Alberta," is what a visitor to Red Deer said on Monday.

Two new blocks are added to the proposed buildings in Red Deer this week.

The papers in Calgary are awfully Riley these days.

Citizens at large while appreciating concrete walks will not be sorry when the job is done on Gaetz avenue.

It is high time there was a big demand from the people for more land titles offices in Alberta.

The Albertan taunts Mr. Riley with wearing the Tory tag, inferring that he cannot be a good Liberal and wear that tag. Perhaps not from the Albertan's viewpoint yet the Conservative party is the recognized Liberal party of Canada to-day, and Mr. Riley in being honest and straight forward cannot help but wear the Tory tag.

Down in Innisfail they don't believe in having a high school class for the benefit of the farmers. As most of the highest standard was composed of farmer's children the class was done away with. If farmers who turn their good money into the coffers of the merchants of Innisfail should treat our southern neighbor as she treats them there would be a mighty howl. Red Deer would be glad to have the

## Eckville

Dan McMillan, Government road foreman, passed through here on his way to Leesville.

A dance will be held in the schoolhouse Friday 30th. Ladies please bring refreshments. Coffee will be provided. A small charge will be made for the music.

Mr. Clausen of Forman & Clausen, was busy last week fitting up the interior of the store. These enterprising merchants are getting in a full line in all departments and are looking for business.

Mrs. Krause and Arthur Kinna were down to Everts last Friday where they assisted at the Box Social, giving several violin duets.

Several letters have been received supporting the Telephone movement, between Leesville & Red Deer via Leesville and Sylvan Lake. Those interested should sign the petition to the government which will shortly be opened at the different points.

Cattle buyers have been busy in this district lately.

## Gaetz Valley

Mr. and Mrs. J. D. Ainejle after spending a month here left for Ontario last week.

Larue Smith is preparing to open up a lumber yard on the new townsite on the G.T.P. to accommodate both the farmers and builders in the town. Mr. Smith has a thorough knowledge of lumber and timber gained by many years experience both in the lumber yard and in timbering.

W. T. Shuttleworth shipped two cars of cattle last week from Red Deer.

Mr. Ratcliffe has moved into Mr. Dixon's house which he will occupy until spring.

Miss Pauline Knight and Mr. Mewburn were quietly married on Thursday September fifteenth.

Clarence Anderson left last week for Edmonton to file on his homestead near Wainwright.

W. Smith is looking very happy lately over the advent of his young daughter.

Mr. James Ross, the Montreal capitalist after whom Ross Street, Red Deer, was named, passed through in an official car on Tuesday. He was much pleased with the progress of the town. Mr. Ross was the prime mover in the Calgary and Edmonton Railway company which built the C. & E. line. He negotiated in person with Rev. Dr. Gaetz for the crossing of the Red Deer river at this point, and has always retained a kindly interest in the town, as past donations to the Hospital testify.

## SEPTEMBER ROD AND GUN.

With the opening of the bird shooting season the September number of Rod and Gun in Canada, published by J. W. Taylor, Limited, Woodstock, Ont., gives a number of delightful stories dealing with the sport amongst the ducks, geese, woodcock and prairie chickens—experiences which will cause many a thrill to sportsmen reading them. Numbers will be able to duplicate, in remembrance, many of these published experiences, and in this way live over again red letter times in their histories. Variety marks this production, every lover of the outdoors, whatever his particular taste, receiving attention. The story of two moose, one of a pet raccoon, the efforts of an amateur to trap a bear, particulars of the American bison, the Alpine Club's last camp and some dog lore show the manner in which the magazine covers the wide variety of Canadian outdoor life. The verses in this number are excellent, and the Bohemian ring of "Pish in's Good" will find an echo with many even of the most staid. "My Little Fisherman" with his wonderful story of the monster that got away appeals to the sympathies of all, while the "Evening Chorus" is equally good. The issue should be found with every shooting party this season.

## Nyals' RHEUMATIC REMEDY

has cured more than a few chronic cases of rheumatism. We are fairly certain that it would be beneficial in your case because we know what's in it.

Anything you buy with the name Nyals' will give you entire satisfaction. Sold and guaranteed by 2235 The Gaetz-Cornett Drug & Book Co., Ltd., and Parker's Drugs and Stationery.

## Will Be Change in Maritime Provinces

St. John, N.B., Sept. 15.—Premier Hazard, Hon. J. H. Palmer, and A. W. Warburton, M.P., of Prince Edward Island and Acting-Premier McLean of Nova Scotia are guests of Premier Hazen, and will this afternoon discuss federal representation. It is feared that as a result of the redistribution of seats following the taking of the census next year, Nova Scotia and New Brunswick may each lose two seats, and Prince Edward Island one seat. Mr. McLean said the question of representation of the maritime provinces in the federal house was getting to be very serious and he felt the action now being taken was very necessary.

## Aylesworth May Resign Any Time

Ottawa, Sept. 14.—It is rumored in parliamentary circles that the Hon. A. B. Aylesworth when he returns from Europe will immediately tender resignation as minister of Justice. His hearing is now so bad that the effectiveness of his work in the house of

commons is much impaired. It is also rumored that his successor as minister of justice will be Mr. Justice Mabee, chairman of board of railway commissioners, the object being to strengthen the Liberal party in Ontario, where the cabinet fighting force would then be Messrs. George P. Graham, Mackenzie King and Mr. Mabee. However, in other circles, it is stated that Mr. Aylesworth will not resign until the end of the present parliamentary term.

## New Fraud to Trap Unwary.

Mexico Produces Variation of Spanish Prison Swindle.

Ottawa, September 16.—Officials of the post office department state that communications on lines of the celebrated Spanish prisoner fraud are being received by prominent persons in Canada and Mexico. These communications purport to come from a person who has been arrested in Mexico for bankruptcy and whose baggage containing a sum of 1,200,000 francs is lying "checked" at some railway station in the United States. The Mexican prisoner is willing to give one-third of this sum to any person who will wire him sufficient money to pay the cost of the judgment against him in the Mexican court under which he is held.

## A TENDER-HEARTED MAID.

Once upon a time there lived a child of gentle mien and manners mild. She was so tender and so kind she wept to see a window blind. She feared it might give the window pain to leave it standing in the rain.

Her maiden aunt she would beg not to stone raisins, beat an egg or from potatoes take the eyes; Oh, how this maid did agonize! And when she saw her aunt whip cream, with horror she would sob and scream.

The very thought of killing time appeared to her an awful crime, and though to music she inclined, to beat a measure seemed unkind. To see the cowlip by the river with apprehension made her shiver. To cut a page or turn it down, would cause a deprecating frown.

And when she saw them shivering in the chill autumn air, she knitted stockings for the trees because their limbs were bare. Her heart so soft with anguish wrung caused this poor maid to die quite young.

—The Widow.

## Bad Stomach.

Many in Red Deer are Being Thoroughly Purified by Miona the Guaranteed Cure for Indigestion.

People of Red Deer who suffer from dyspepsia and other stomach troubles

are getting tired of taking preparations containing pepsin, because pepsin simply digests the food artificially. And remember, pepsin only digests animal food; it has no effect on starchy food, such as potatoes, rice, bread, etc.

Miona cleanses and purifies the stomach and bowels, and tones up and puts energy into the stomach walls, so that they properly mix the food with the natural digestive juices of the stomach.

Miona tablets quickly arouse the stomach from its inaction, and in a few days it is able to do its work easily and without exertion. There will be no more sour stomach, fermentation of food, dizziness, sick headache, belching of gas, or foul breath.

Miona only costs 50 cents a large box, and is guaranteed by Gaetz-Cornett Drug & Book Co. to cure dyspepsia, sea or car sickness, vomiting of pregnancy, and stomach sick ness resulting from over-indulgence of the night before, or money back.

## HYOMEI

## SCHOOL BOARD MEETING.

### Winners of Medals.

At the Monthly meeting of the School Board on Wednesday evening there were present Mr. Carswell, chairman, Mr. Simpson, Mr. Gaetz, Mr. Payne, Mr. Munro, secretary, and Mr. McKenzie Principal.

#### ACCOUNTS

The following accounts were ordered paid—  
Smith & Gaetz, fittings, \$ 19.40  
Nicholson, Carstairs & Co., 85.00  
Insurance 119.81  
Gaetz-Cornett Co., blackboards in high school 119.81  
R. B. Welliver, insurance 85.00  
W. E. Lord Co., 2.40  
W. E. Trump, painting of high school rooms 193.00  
McKee & Cruickshank, glass cases and furniture work, 628.60  
Hugh Clarke, book case, carpenter work on high school rooms, porches, &c 377.05  
J. Woods, trowling 31.00  
P. H. Tallman, mats, &c., 33.60  
Theo. Gudmundson, work on school grounds, 142.75  
John McVicar, books for teaching staff, 19.26

#### HIGH SCHOOL CARETAKER

The Board considered the question of caretaking of the old school, now used for a high school. They deemed it advisable that the present school caretaker, Mr. Reuben Gee, handle the two buildings and the grounds, he to employ such assistance as he deemed necessary and he to be responsible to Principal and board. Mr. Reuben Gee submitted an offer, and Mr. Robert Gee submitted an offer to look after the high school. The Board will submit an alternative offer to the present caretaker of \$100 a month.

#### THE MEDALS

The Secretary will procure from Mr. Humber the three gold and four silver medals donated by private citizens for pupils obtaining over 60 per cent at the entrance examinations. The lists are:

#### STANDARD VIII.

Myrl Mowers  
Clara Tyner  
Alice Grant.

#### STANDARD VII.

J. A. Carswell.  
A. Evans.

#### STANDARD VI.

F. Speakman  
Pearl Hall  
L. Richardson.

#### STANDARD V.

Douglas Wilton  
Edwin L. Meeres  
Orniston McKee  
Paul McKee  
Verna Lees  
Ada Belle Dale  
Byron Geissinger  
Frank Dorrance  
Agnes Bjorkgren  
Dorothy Banton

## REPORTS

The aggregate attendance for the week ending September 9, was 332, with an average attendance of over 308.

Principal McKenzie reported at length on the re-grading of the standards, and the disposition he had made of standards and teachers. He recommended more detailed quarterly report forms for the upper standards and more detailed monthly reports for the middle standards, in order to give the parents a better idea of the progress of their children than the present forms afforded. These will be procured.

The Board granted permission for the use of the school buildings for the Teachers Convention on October 7. The Principal and teachers will cooperate with the Board in the Commencement evening for the presentation of medals, &c.

#### SCHOOL STYES.

The Board discussed the advisability of securing a site now for additional school accommodation which would be needed next fall probably. The property favored was on the corner of Fifth Street South and First Avenue East, seven blocks out of the present schools. It is very nicely situated, and contains 1 1/2 to 2 acres.

The Secretary will inquire as to its cost. Mr. Simpson thought they ought to bear in mind that the present High School building was only temporary, and that provision would have later to be made for adequate high school accommodation.

The Board adjourned at 9.40.

### He Loves Protestants.

But Hates Protestantism, says Father Vaughan.

Montreal, September 7.—Father Vaughan, lecturing before an audience of men and women at the Catholic Sailors' Club to-night on religion, divorce and race suicide, said it must not be thought from his previous sermon that he did not love the Protestants. He did, but he hated Protestantism, and he would be a mean and contemptible man if, thinking so, he did not say so. If Protestants did not like that they could lump it. He found fault with Protestantism mainly because of their neglect of marriage vows, and in doing so they were guilty of legalized prostitution. If Protestants continued the practice of divorce to-day and their neglect of marriage vows, in the long run the Catholic would outnumber them in all parts of the world. Europe sees signs of decay to-day like Carthage and Greece of old, and only the more vigorous spirit of Christ could save it. He concluded by saying that Protestantism was commencing to decline by tearing Christ and Divinity out of their religion.

## Important Church Congresses

September will long be remembered in Canada as the month of church congresses. Never in our country's history has more important meetings been held than during this month.

The celebration of great historic interest at Halifax, commemorating the bicentenary of the first Church of England service held in Canada at Annapolis, Nova Scotia, by the chaplain of the victorious British forces, and was an act of gratitude to God for the surrender of the French commander. This congress was attended by many prominent Anglican ministers and laymen from Britain and America, and opened with the formal dedication of the new All Saints' Cathedral in Halifax on the 3rd of September.

The Anglican church in Canada gives every sign of energetic life and is doing a splendid work in support of high national ideas and in meeting the religious necessities of the outposts of settlement. In England interest in it is naturally taken in the Canadian branch of the church. But the healthy rivalry evoked by the Protestant churches has not prevented recognition of the need of co-operation in working out the national problems.

The great Eucharistic congress which opened at Montreal on September 6th, attracted the attention of millions to whom Canada is only known in name. The Roman Catholic Church is world wide and still remains by far the largest body of missionaries have ever followed closely in the tracks of the most adventurous explorers or accompanied them, as did the priests who celebrated their first service on Mount Royal and upon Jacques Cartier's arrival on October 3, 1535. Since that eventful of historical and romantic record, and it has left Canada a nation springing from the two great western nations of Europe, for centuries bitter enemies, but to-day close friends and allies. This is unique in the world and the situation provides difficulties of its own. But French Roman Catholics and British Protestants have united in building up a real national sentiment and in maintaining that right of individual freedom without which the unifying process could not have operated.

The Eucharistic congress is of modern and first assembled at Montreal in 1881. Its meetings have been chiefly in France and Belgium though a fourth was held at Fribourg, Switzerland, and in 1893 it met at Jerusalem. Its silver jubilee was celebrated in 1905 at Rome and the eighteenth saw it in Metz in German Lorraine, the German government suspending that the special ceremonial observance of the Mass might be appropriately solemnized. Very different was the experience of the congress of the following year, 1906,

held in London. Strong Protestant opposition was aroused and on the personal request of Mr. Asquith, the Prime Minister, the procession of the Blessed Sacrament was deprived of the feature which appeals most to devout Catholics. This year for the first time the congress, Europe and found an entirely congenial home in Montreal, the great commercial centre of French Canada. For the last two years it has been prepared for and this meeting was equal to and even surpassed those of former years. The gathering was a distinguished one and included many of the best known princes and prelates of the church.

## OUR FIRST EXHIBIT OF FALL MILLINERY

### Will be made on THURSDAY, SEPTEMBER 22nd

When the Fall Season will be formally opened, and we will be prepared to take good care of, and give prompt attention to all orders entrusted to us.

Many of the "Creations" for this season are quite novel but, nevertheless, becoming to the wearer. You are invited to inspect our display of patterns, and your esteemed orders will be appreciated. No special announcement cards are being mailed by us this season. THIS IS YOUR INVITATION.

**Cushion SOLE**  
**TREADEASY**  
The "TREADEASY,  
Cushion Sole,  
Empress Shoe."

Built-in inner sole of Australian wool felt, conforming to the shape of the foot, absorbing moisture and thus keeping the feet dry, saving the foot from exhaustion, and preventing headaches by absorbing the jar of walking that shock and injure the sensitive nerves of the foot.

WE ARE EXCLUSIVE AGENTS FOR THIS COMFORTABLE SHOE.

# Empress Shoe for Women

Is undoubtedly the most satisfactory Shoe. It is the highest type of Ladies' Footwear, stylish, comfortable and durable, and being thoroughly seasoned before the last is removed. IT KEEPS ITS ORIGINAL SHAPE. The prices range from \$3.00 to \$5.00 per pair. The price is stamped on every pair by the manufacturers. The same price to you as required in Eastern Canada, where it is made.

Here Are Especially  
Some Good Ones

The following are a few numbers which are considered particularly good, but these represent only a very small portion of our stock.

- C307 Patent Colt Blucher with dull kid top, Goodyear built \$5.00
- F364 ditto straight last \$4.00
- F365 ditto button ditto \$4.00
- F367 Kid Blucher, College cut, Goodyear built \$4.50
- F363 ditto, slip sole, flexible \$4.00
- F360 ditto \$3.00
- C 299 Kid Button ditto \$3.00
- F366 Kid Bal, low heel, very broad last \$3.50

Button Boots are growing in demand, this is one of our "Empress" \$4.00 line.

Nice Warm Slippers  
For Cool Mornings  
and Evenings

- F563 Women's Plaid Slipper with cuff on top. Leather covered soles \$1.25
- F564 Women's ditto @ 90c
- F565 Misses ditto @ 75c
- F566 Childs ditto sizes 8 to 10 @ 65c
- F 567 Infants ditto sizes 3 to 7 @ 60c
- F568 Women's Velvet Romeo fur trimmed, colors grey, and red \$1.75
- H4 Womens Felt ditto, red and black \$1.50
- F562 Mens Plaid House boots, leather covered felt sole \$1.75
- F569 Mens' Black Romeo slipper, turn sole \$2.00
- F568 Mens' Chocolate ditto \$2.50
- F561 Mens' Felt Slipper leather covered sole 60c
- F560 Mens' Carpet ditto 65c
- F569 Boys' ditto 60c

SOMETHING DISTINCTIVE

Some of the distinctive features of this style is the French Last, which is made for a short vamp and forepart, a Cuban heel and a high arched shank and instep, which accentuates the graceful lines of the foot, and has the appearance of being a full size smaller.

## GLEICHEN.

The people of the west love a good fighter. E. H. Riley, who is putting up such a splendid fight in Gleichen, has carried the hearts of the electorate of the constituency by storm.

In Mr. Riley's own words, one of the most important issues of the campaign is expressed as follows:

"Then I, as your representative, was satisfied that a loosely constructed contract had been entered into, of which any school-boy would have been ashamed. For five weeks we bombarded the government and brought their majority from 38 to 3 before the house adjourned; the bonds which were bearing five per cent. were put in the bank at three and a half per cent., a loss of one and a half per cent.

But, by the efforts of 13 other members and myself, before the house adjourned that \$7,400,000 was tied up.

We tied it up. (At this point the audience cheered to the echo.) Yes, we placed it in safe keeping. Don't forget this whatever other issues may be brought into this campaign."

Mr. Riley and his fellow insurgents saved the ship of state. But machine politics must rule at any cost.

Mr. Riley was deprived of the honor which was his just due; Chief Justice Sifton steps down from the bench, puts on the crown, and poses as the hero who has saved the province.

It is up to the electors of Gleichen to show by their votes on Oct. 3rd that the people rule in Alberta by electing Mr. Riley by a big majority.

## MORE LAND TITLES OFFICES WANTED.

(Edmonton Journal)

The matter of registration of land titles, including transfers, mortgages, mechanics' liens and other encumbrances, is becoming a live question in the districts outside of Edmonton and Calgary, the only two places at present in the province where such can be registered. The government has all along contra-

lized its public offices at Edmonton, but this theory, with the enormous increase in the population of the province, is not working out to the satisfaction and convenience of everybody, especially of those working at some distance from the capital, at least as regards the registration of encumbrances on real property. More registration offices are wanted.

Last year representations were made from the city of Lethbridge asking that it be created a registration district but the then government did not entertain the proposal with any favor, so that although Lethbridge does as much, if not more, business in this line than Calgary, still it is compelled to transact the work at the latter centre. It simply means a loss to the people there of thousands of dollars every year. Medicine Hat has also submitted a similar proposition to the government, but it receives no more "serious consideration" than that from Lethbridge. No formal action has been taken by any of the towns along the Canadian Northern until recently, when Vermilion began to make a proposition in plain language to be created a registration district. Vermilion is midway between Vegreville and Lloydminster and is the most suitable location for the Canadian Northern districts. There is a very large amount of business from all along that line and that it should be compelled to come to Edmonton is a matter of discontent in Vermilion. Wainwright or Hardisty might also be entitled to an office on account of their long distance from Edmonton, where their titles are now registered and searched. The claims of either Red Deer or Wetaskiwin cannot be overlooked, and it is believed with all these additional offices the Edmonton office would be kept just as busy as it is at the present time. There does not seem to be either rhyme or reason why this reform could not be put into operation without the least delay. It looks like absurdity that Lethbridge and Medicine Hat should be compelled to conduct its land business at Calgary, Red Deer, Wainwright, Lloydminster and Vermilion at Edmonton.

The province of Saskatchewan a year or two ago, realized the impracticability of the scheme of centralization and opened offices at Moose Jaw, Yorkton and Saskatoon, making five places in the province for the registration of land titles, Regina and Battleford having been established un-

der the old regime just as Edmonton and Calgary had been. The result has been marked in the amount of money saved to the people, and the removal of such grievances incidental to having the encumbrances registered at some central location.

## THE C.N.R. ROUTE.

Bystander Mrs. His Views On The Situation.

To the Editor of The News:

As a well wisher of the town I wish to draw the attention of the people to what seems to me to be the gross inactivity of those whose business it should be to look after the town's interest in the matter of getting the Brazeau line of the C.N.R. to enter Red Deer.

However in all fairness to officials I want to say that my criticisms are only based on surmise, or rather conclusions I have arrived at judging by what can be seen.

About the beginning of July when presumably owing to the obstructive tactics of the C. P. R. to the C.N.R. Calgary lines, the C.N.R. turned their attention to the Brazeau line, throwing at once their large construction force into the work at the Stettin end.

This was well known by every one and our officials notice was personally drawn to it, but no attempt whatever was made to look after the town's interest. Previous to this several weeks their notice was also drawn to the fact that C.N.R. surveyors were endeavoring to get a satisfactory grade through the country west of range 25, and continuing on west of Blackfords or Lacombe, and with apparent unsatisfactory results. It was then pointed out to our officials that now was their chance to induce the C.N.R. to abandon their attempts to continue down west and instead make a detour by way of Red Deer, using that portion of their proposed S line from the power house on the Blindman to the top of the hill north of Red Deer, then swinging west again to meet their proposed Brazeau line. No thing, however, was done until the beginning of August, when with the possibility of the C.N.R. taking this course themselves the Alberta Central took steps to oppose it. This appeared to make our town wake up long enough to send a delegation to Ottawa to the Railway Commission and this being done they immediately went asleep again. As a result to this opposition to the C.N.R. a ruling was obtained restraining them from grading west of range 25, until the case would be further investigated, which means they are held up there or else take their chances building further without approval. The situation at the present time is a complicated one, but decisive

and intelligent action on the part of Red Deer would no doubt quickly straighten things out or at any rate if the C.N.R. is worth having in Red Deer, it is worth making an attempt to get it now from sources that appear to be reliable. The information now at hand seems to indicate that the C.N.R. is a middle one between Red Deer and Lacombe that is from the power house on the valley of the Blindman on the north side for a distance of about five miles west of the C. & E. line then across to the south side of the Blindman. Now with the opposition of the C.N.R. invading their territory in the west on the one hand, and the apparent unwillingness of the C.N.R. to go by Lacombe on the other, it would seem that Red Deer should be able to come in with effect.

The stand has been taken and right fully too that other things being equal railways should not parallel each other through the same section of country. But this is one of the cases where other things are not equal.

The C.N.R. is now approved and graded paralleling the C. P. R. Lacombe branch to the west of range 25 this can not now be done.

The main object of the line appears not to be so much to open up new country as for the special object of opening up their Brazeau coal fields and connecting with their transcontinental at the Yellowhead which seems to be the objective point of all the Railways including the Alberta Central.

This means that of necessity these roads must parallel each other somewhat closely the only alternative being for the C.N.R. to make a detour to the north by way of Lacombe, through a country that offers peculiar difficulties.

And even that would only make a slight difference as they would converge again a few miles west.

On the other hand the C.N.R. continuing their line as they are doing passing by the power house to the junction of their proposed S line and then crossing the Blindman valley by that route would obviate crossing that valley more than once, one bridge sufficing for their two roads, would make direct connection with Red Deer, which they should do, and would not necessitate the paralleling the A. C. any closer than it will do in any case further west. Now, sir, is the time for the town to move quick a thing that is worth having is worth asking for. The impression has gone forth that Red Deer is opposing the road, and no wonder, judging by the town's apparent lethargy in the matter.

I hope that our officials will not be offended by this tender of free advice, but they surely stand to lose if they do not accept and act on it.

BYSTANDER BUSYBODY.  
Red Deer, Sept. 17.

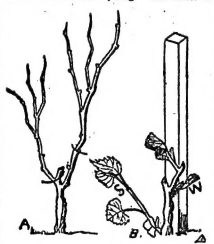

## Farm and Garden

## WINE GRAPES.

Training the Young Vines—Long or Short Pruning.

By P. T. BLOTT, University of California.

In the autumn or winter following planting the grapes should be pruned, either before or after pruning, but in any case some time before the buds start in the spring. The kind of

VINE THE SECOND SEASON.  
[A, vine pruned to one cane and tied to stake; B, removal of suckers S and lower shoots W in spring.]

state used will depend on the variety of vine and method of pruning to be ultimately adopted.

For ordinary short pruning the stake should be of such length that, after being driven into the ground, sufficient will be below the surface to keep it firm and prevent its being loosened by the force of the wind acting on the vine, which is tied to it, and sufficient above the surface to extend one or two inches above the height at which it is intended to lead the vines. It should be from one and a quarter to one and a half inches square, according to its length.

If the vines are to be pruned long and the canes tied to the stake, a five foot stake will usually be needed, and this must be stronger, 2 by 2 inches square. This stake should be driven two feet into the ground.

The dimensions of the stake are all smaller than are usual in California, but are quite sufficient for all practical purposes. This stake should be placed one to two inches from the vine on the side opposite to the prevailing heavy winds. The force of the wind will thus keep the vine pressed against the stake, and the tying material will be less liable to break. The first winter any vines which have made a strong growth and possess at least one cane, of which a sufficient length is well ripened, may be pruned for tying up. All the canes are removed entirely except the strongest, and this is cut back to ten, fifteen or eighteen inches, ac-

cording to the height at which it is intended to head the vine. The top cut is made through a bud, just as in making a cutting.

The idea is to keep in mind is to cut back each winter nearly to the ground—that is, to two buds—until a cane is produced with a length of a well ripened cane equal to the height at which the vine is to be headed. It is very important that this cane should be straight, healthy and well ripened, as it is from that the trunk of the mature vine develops.

Forcing of Tomatoes.  
In eastern Virginia the forcing of tomatoes in greenhouses can be done more cheaply than in the north, owing to the abundant sunshine in winter and the absence of the cold spells common on the northern Atlantic coast. For this reason less fuel will be needed. But the man who would derelict tomato forcing in any make shift house will find that his experience has cost him a good deal. It is, in fact, forcing under glass calls for a high degree of skill on the part of the gardener, remarks a writer in the Southern Planter. But in the south Atlantic coast country the tendency is in that direction. The use of steam in the cloth covered frames in North Carolina is one step toward real winter work.

How to Spray For the Scale.  
An authority which recommends the blue sulphur wash for the San Jose scale says that every scale must be touched by the spray in order to be killed. But a very small droplet on each scale will be sufficient. To spray successfully, then, spray thoroughly.

FOR SALE.  
Genuine Antoine Controls, silver-plated cornet, Kanig's model; in case. Also newly new brown McClellan saddle, with stirrups, \$15.00. Call Sept. 9, 30.1.

HAY FOR SALE.  
A small stack of Timothy hay for sale at market price in good condition. Apply to H. Banton, Poplar Ridge, Red Deer, August 9th. 1f.

## SEED CORN.

Not a Difficult Matter to Determine Vitality of Ear.

There is serious danger that this year's corn crop will be limited by a poor stand of plants.

Many growers will be compelled to buy seed. In such cases do not risk purchases from a different latitude. If good seed of a productive variety cannot be bought near home, then make sure that the seed has been grown in a section having a similar growing season, advises a writer in National Stockman and Farmer. Even if the corn is sold as tested seed buy early enough to enable you to make a test for yourself before planting.

The First Thing to Do.  
The first thing to do is to test the corn that one is planning to use. It will pay to do this right. Make some boxes three inches deep and six, eight or ten inches square. Partly fill with sawdust or any other material that will hold moisture. Place on this a square of muslin that is marked in one inch squares and numbered. On each square place four kernels of corn taken from different parts of the ear, one square for each ear that is to be tested. Give the ear the same number as the square by writing the number on a slip of paper and tying it around the ear. Cover the corn in a box with a pad that will hold the moisture, and keep the box in a warm room. Select for planting only the ears whose sample kernels have shown strong germinating power. If one kernel in four fails to germinate, or if the germination is slow and weak, reject the ear. The task of testing is not nearly so great as these directions may indicate, and in this way one may know that all the seed is capable of making a strong growth of plants.

It Pays Every Year.  
It pays every year, but this year it will be unusually profitable. Much corn will not grow all right, and very much will germinate only under most favorable conditions, and some cold, wet weather after planting will rot it. Make sure of the selection of all seed that is not full of vitality, and this method of testing will enable any one to do so.

Toulouse Gander.  
Few if any birds exhibited at poultry shows are so much as present a record equal to that of the gander whose pen portrait, from New England Home-

stead, here appears. For eight years he has maintained the right to his name, Madison Boy, by winning first premium at Madison Square Garden, New York, every season—eight first premiums at America's greatest poultry show! Besides these prizes he has won first at other large shows and is pronounced by breeders and judges to be a remarkable bird. He was bred by Clarence W. Kling, president of the Water Fowl Club of America, and is a native of the Empire State.

The Gardener's Early Work.  
Not much is done in the gardening line on the average farm in February, but those who make a business of market gardening are actively getting their hotbeds ready and planting with vegetables to be forced for the early market. In the Boston district lettuce and radishes are the main reliance for this purpose in the early hotbeds. Late crops will not mature and cucumbers are started to be set in the ground at the approach of warm weather. Cabbages for the early crop are planted about the middle of February. Tomatoes intended to be transplanted in the open ground are not planted until the very last of the month, but some are planted early when intended to be transplanted into greenhouses.

In sowing seeds some very fine earth should be planted free from lumps and pebbles. The seeds may be started in boxes in a warm room in a house if desired, although they will not grow so fast as in a hotbed—American Cultivator.

Sowing Spring Oats.  
As a rule we much prefer to sow oats in the fall, but owing to the continued dry weather few farmers succeed in planting a sufficient area, and many have failed to sow any. Now oats are one of the most profitable crops we can grow, especially when followed by peas sown for hay. Owing to the depressed times, the high value of foodstuffs and the probability of cheaper cotton next fall it behooves the farmers to sow a large area in spring oats. Put them in as early as possible—Southern Cultivator.

Combating Glanders.  
In combating glanders the general practice is to destroy horses which are positively known to be affected with the disease and to quarantine those which are merely suspected of being affected.

Cornstalk Litter.  
The refuse from cornstalks that have been shredded as food for cattle, together with straw, makes good bedding for the cow.

TENDERS.  
Tenders for building material for constructing school house will be received by the secretary of Red Wing School District No. 224, up to noon of Monday, Sept. 20th, at his residence, Sec. 4, T. 37, R. 23, west of 4th, G. 20.1.

W. T. SHUTTLEWORTH, Secretary, Sept. 12, 2w.

SITUATIONS WANTED.  
Stenographer (lady, Scotch) wishes situations. Five years experience. Good reference.—SCOTT, Evans, Sept. 6th, 30.1.

## Humor and Philosophy

By DUNCAN M. SMITH

## PERT PARAGRAPHS.

If you don't want adverse criticism don't put yourself in the way of receiving it. For that sort of thing is neither timid nor shrinking.

It might seem reasonable to suppose that the people who point out your duty to you are the ones to help you to do it, but that's mere supposition.

And it sometimes happens that the things you do not say are more to be regretted than the things you do say.

The impossible happens occasionally, and then everybody murmurs "Of course."

Those people who really don't mind are pretty apt to be those who can't.

Be patient. It may not be effective, but it at least is not so expensive as some other things might be.

Take a Lesson.  
No odds how modest or forlorn may be a fellow creature. He can to them who will observe be something of a teacher. Yes, even from a humble mule. The haw mule or the gee one, a hint of conduct may be learned and that is not to be sneezed at.

Not by examples that are set. Marked out for one to follow. May one perfectionist go astray! The end is often better. But seeing what one may avoid and taking notice of what one should not do. Then following the example.

So when you see a gentleman. Bombastic, loud and silly. Who makes a riot of the night. That should be a warning. You know without a book or chart, Without directions printed. That there are things you should not do. Though not a word is hinted.

So learn a lesson from the mule. If one, perchance is handy. And as different as you can. To marble him, or cadify. And if a mule you do not find. His talents coarse displaying. Some one will make a substitute. Who does a lot of braying.

Needed it.  
GIMED.  
"He is going straight to Satan."  
"He is?"  
"I think so."  
"Probably that is the reason he is stocking up with fire water."

His Natural Mistake.  
"How do you like my new hat?"  
" Haven't seen it."  
"Why, that is it."  
"Where?"  
"Where on the table."  
"What? I thought that was a basket off the vegetable peddler's wagon."

The Invertebrate Knocker.  
I'm much inclined to knock about. And hit a friend or two. Put up a thing to me about. And make a great ado. But still I rather hesitate. When things are getting hot. For I am not a vertebrate. And courage I have not.

A President.  
"Why can't they harness wild geese and train them to haul flying machines?"  
"Would it be practical?"  
"Why not? I know a man who was out on a bat."

Fatal Mistake.  
"What was he discharged for?"  
"Insanitation."  
"What did he do?"  
"He told the boss' favorite joke in company before the boss got around to it."

Sure Sign.  
"What's his salary?"  
"Less than \$15 a week."  
"How do you know?"  
"Well, he thinks they couldn't run the establishment without him."

Some Attraction.  
We hear the call or duty. And quickly make our choice. To answer to the summons. If it's a lady's voice. We don't consider it a crime. If it's a man to take our time.

Simple Plan.  
"Have much trouble with hired girls?"  
"Not a bit."  
"How do you manage it?"  
"We don't keep one."

So Called Manly.  
"Are you fond of art?"  
"Neither life."  
"What variety?"  
"Enlightenment."

Superlative.  
Of all the trusts that roam the world. And higher prices make. And keep us scratching for the dough. The life trust takes the cake.

W. R. DAVIS  
(Successor to Fred Hart, Gaets Ave.)

All kinds of Small Machinery and Iron Work Repaired.

Scissors Sharpened. Guns Repaired.

Prompt and Courteous Attention.

## ANNOUNCEMENT

TODAY, for the first time here, the new medicinal preparation—"ASAYA-NEURAL"—is offered for sale, and may be obtained from the undersigned.

"ASAYA-NEURAL" represents the latest conclusions of medical research in the effort to supply the nervous organization of the body with the elements required to restore normal nervous health, in a form capable of being assimilated by the weakest digestive organs.

As is well known, every effort of the mind and every movement of a muscle uses up a part of the tissues of the nervous system, the waste products of which have been found by chemical examination of the excretions to consist largely of mineral phosphates.

In health, when the nervous forces are not over-exerted, certain foods, such as fish, eggs, milk, etc., supply sufficient of the phosphatic principle to restore this loss.

But when a person, young or old, through over-work, worry, intense excitement, grief, alcoholic or other excesses, over-exerts the nerve powers, accelerating the using up of nerve tissue and the consequent loss of the phosphatic principle past the power of recuperation by the ordinary channels of the food, the condition of nervous exhaustion results.

These facts have long been known, and physicians have for years endeavored to aid the system to regain its normal supply of the vital phosphatic element by the giving of phosphorus compounds of many kinds.

The preparation—"ASAYA-NEURAL"—may be described briefly, as the latest advance in the art of phosphatic medication, suitably prepared for general public use. In it phosphorus is supplied in practically the same form as it exists in the human system, thus enabling this nerve building element to be easily assimilated even by those whose digestive powers have been so weakened by disease as to make it impossible for them to retain and assimilate phosphorus preparations of any other kind. It is a safe, home remedy, immeasurably superior to any previous compound for similar purposes, and should be taken by persons suffering from

NERVOUS EXHAUSTION  
NERVOUS DEBILITY

NERVOUS PROSTRATION  
HYSTERIA INSOMNIA

For the nervous despondency frequently experienced by women when recovering from child-birth and for all conditions of nervous derangement resulting from the causes named above.

"ASAYA-NEURAL" checks the night sweats due to extreme nervous debility, and, under the physician's direction, will be found of great service as a reconstructive tonic in the treatment of wasting and debilitating diseases, especially Consumption, where it is of prime importance to maintain the nervous strength, and during the convalescence from acute diseases, such as Pneumonia, La Grippe, etc.

FREE TRIAL SAMPLE OFFERED.—BENEFICIAL EFFECTS ALMOST IMMEDIATELY EVIDENT.

The first effect of this preparation is the lifting of the feeling of depression and the awakening to a more lively interest in things about us. Ability to sleep returns, the digestive powers are roused, the appetite improves, and a general feeling of rejuvenation and renewal of energy is felt. The beneficial effects are evident almost at the first dose. Not due, however, to false stimulation, as in alcoholic preparations, but to real feeding of the under-nourished nerve tissues, while the time to stop taking this preparation is as evident as is the time to stop at meal time, that is, when the nerves have been fed until their normal condition returns and a buoyant feeling of nervous health replaces the depression previously experienced.

**SPECIAL NOTICE.** Any adult person may, within ten days from the date when this notice appears, obtain a liberal sized free sample bottle of "ASAYA-NEURAL," quite sufficient to definitely establish the value of this preparation in their case, by filling in the coupon below and presenting same to the undersigned. "ASAYA-NEURAL" is regularly sold in large bottles at \$1.50 each. One bottle, taken three times a day according to directions, affords treatment for about forty days, all that is usually required for ordinary derangements of the nervous system.

"ASAYA-NEURAL" is prepared solely by the DAVIS & LAWRENCE CO., Manufacturing Chemists, of New York, Montreal and Shanghai, and may be obtained locally from

Parker's Drug Store,  
RED DEER, ALTA.

COUPON FOR FREE SAMPLE  
Cut out, fill in, and present to the dealer named.

being done in the rescue of fallen  
women. Perhaps the most hope-  
less human being is she who,  
having been betrayed and ruin-  
ed, gropes in the darkness of des-  
pair among Christian people for  
sympathy and love which is  
denied her, although she is one  
of God's own children with a  
soul like our own, more deserv-  
ing of sympathy than many a  
saint bowing at God's altar,  
Sunday after Sunday, in saintly  
ecstasy.

Miss Price, who has devoted  
her life to this good work, re-  
ports 57 girls taken in so far this  
year. Fifty-seven of God's little  
children given a chance to raise  
their stained souls in adoration to  
Him as the Magdalene did of old;  
that they were given a chance to  
repent and lead better lives.

All honor to Miss Price for the  
noble work she is doing. She  
should be classed with Florence  
Nightingale as a lover of suffer-  
ing humanity.

The Herald's report is as  
follows:

Ten years ago a trained nurse  
knocked at the door of a certain  
house in Winnipeg and enquired  
for another nurse, whom a doc-  
tor had requested her to engage  
for him. Upon the door being  
opened the caller was surprised  
to find herself at the Salvation  
Army rescue home. She was in-  
formed that the house was a place  
for the rescue of young girls, and  
the nurse was so impressed that  
she at once decided that there  
was no better way in which she  
could spend the remainder of her  
life than by devoting it to this  
very laudable cause. That was  
how Adjutant Price, of the Sal-  
vation Army rescue home on  
Mountain avenue, got into army  
work and how Hamilton came to  
have a woman who is daily doing  
more for the uplift of humanity  
in this city than more than a  
people even imagine. During the  
four years in which she has been  
in charge of the home hundreds  
of young girls and women have  
been saved from suicidal and other  
consequences of a ruined life.  
But, strange as it may, this work  
has gone on unheard of and not  
supported as it should have been.  
Adjutant Price, herself a trained  
nurse, has, with the assistance of  
a few faithful supporters and the  
generosity of a number of pro-  
fessional and lay people, carried  
on the home in the face of diffi-  
culties until today its usefulness  
is just double what it was when  
she took charge.

As Adjutant Price explained to  
a Herald reporter at the institu-  
tion yesterday afternoon, the  
home is practically doing the  
work of the parents. During the  
ten years in rescue homes from  
Halifax to Hamilton the adjunct  
has seen many pitiful spectacles  
and has seen many young women  
rescued who, if they had been  
dependent upon their parents,  
would have been allowed to go to  
ruin simply on account of one  
false step. Only a very small  
percentage of these girls  
who have been picked up and  
assisted in their trouble, have fail-  
ed to reform and live decent,  
respectable lives. Already this  
year 57 girls have been taken in,  
many of them in wretched con-  
ditions of health and finance,  
and from many places besides  
the city. None are refused, no  
matter of what nationality or re-  
ligious denomination.

In addition to caring for the  
unfortunate young women, the  
home is also a hospital where  
people of means may receive  
homelike accommodation with all  
the attentions of a hospital. This  
feature of the home has been de-  
veloped very largely within the  
last year, and it is expected that  
the hospital, which is exclusively  
for maternity cases, will contrib-  
ute largely to the maintenance  
of the institution. In order to  
provide every comfort for the pa-  
tients of the hospital, Adjutant  
Price has had a cottage erected on  
the home grounds this year in which  
all the babies are being looked  
after. While small, it is a well  
ventilated and cheerful building,  
and there is also an isolation hos-  
pital in another new building. In  
future all cases of infectious  
disease will be kept in the iso-  
lation hospital, so that with the  
babies in a separate building, the  
quiet and security of the main  
building will be assured. Besides  
the adjunct there is another  
trained nurse always on hand and  
a number of doctors visit the in-  
stitution each day.

As the home is maintained only  
by the municipal and government  
grants, in addition to public sub-  
scription, it does not have much  
money to come and go on. The  
adjutant is always pleased to  
accept donations of women's

clothing, and, as the winter is  
coming on, money contributions  
will also be gratefully received.  
Last year 134 women and chil-  
dren were cared for, and by the  
end of this year the total will  
most likely be much higher.

**Will Ask Province  
to Guarantee Bonds.**

Canadian Northern and Alberta Central Will  
Place Applications Before Legislature.

Applications for guarantee of  
bonds for lines of railways which  
are already under construction,  
within the province and for  
others that are projected, will be  
laid out to the legislature, it is  
learned, when the house meets in  
November.

It is understood that one of the  
first to appear will be the Cana-  
dian Northern railway, and that  
they will apply for guarantee of all  
or a portion of their Stettin  
branch into the Brazeau coal  
fields, a small portion of which is  
being constructed this year.

President William McKenzie,  
of the N.E.R., had several  
lengthy conferences with Premier  
Sifton while he was in Edmon-  
ton on his way east from the  
coast, and it is believed that the  
nature of the conferences has  
been a discussion in guarantee  
of bonds for this and other project-  
ed C.N.R. lines.

Another railway which, it is  
said, will apply for guarantee is  
the Alberta Central railway,  
which is building from Red Deer  
west. It is understood that there  
are at least four applications for  
guarantee already before the  
provincial cabinet.

**President Taft in Favor of  
Reciprocity.**

Believes Reciprocal Treaty With Canada Would  
Prove Beneficial to Both Countries.

BOSTON, Mass., Sept. 14.—  
Convinced that there is a mutual  
wish for a reciprocal treaty with  
Canada, President Taft, at the  
coming session of the United  
States cabinet in October, will be-  
gin active negotiations looking to  
that end.

First, there will be made over-  
sight by the Laurier government  
by the state department, though  
the President has no idea of visit-  
ing Canada to further his idea of  
reciprocity, and no definite plan  
has been framed as to proceed-  
ing. For example, the President  
believes on both sides road  
of the line there is much com-  
ment in favor of an agreement of  
tariff matters except among manu-  
facturers of Canada, rather as a  
continuation of last March confer-  
ence with the Canadian Commis-  
sioner, Hon. Fielding, at Albany.

much good. He will propose a  
general treaty of exchange of  
goods between the two countries.  
For example, the President be-  
lieves the entering of the wed-  
ge is to be made in regard to agri-  
cultural products on both sides of  
the line, that the move will war-  
rant proceeding to a general  
treaty with the United States  
and from Manitoba into the  
Dakotas, say, have the same  
rate going to the coming. The  
steps will have been taken towards  
a good sound agreement that will  
avert all tariff war in the future.  
President Taft has derived much  
encouragement from the recent  
arrivals of Canadian goods. The  
on the subject of reciprocity.

**Typhoid in Calgary**

The Calgary Herald speaking of  
the epidemic of typhoid fever in  
that city says the epidemic shows  
little sign of abatement. Pa-  
tients are applying for admission  
into the local hospitals daily, and  
the overcrowding continues.

When there is no room for the  
patient who applies for admission,  
he has to wait in a crowded and  
valueless is moved out. Yester-  
day there were four waiting to get  
into the general hospital.

More nurses have been secured  
for the general hospital, and there  
are going to be 40 employed this  
Dr. Dawson, medical health officer,  
is ordering more wells contain-  
ing contaminated water closed  
every day.

**Forest Fires Again Raging  
in B.C.**

Vancouver, B. C., Sept. 14.—  
Forest fires are doing great dam-  
age in the Delta district, between  
here and Blaine. The Great  
Northern trains are badly stalled  
because of burned-out bridges at  
Fernale and other places.

It is reported that three chil-  
dren of the family of William Mor-  
rison, of Aldermore, were burn-  
ed by fire while their father was  
away, but there is no confirmation  
of the report.

**THE MOON'S PECULIARITIES.**

Interesting Conditions & Visitor From  
the Earth Would Find.

There are many interesting things  
about the moon that would appear  
very peculiar to a visitor from the  
earth, says Lawrence Hughes. To be-  
gin with, the day and night together  
make a month long each being about  
two weeks. As the moon has no at-  
mosphere, its heat is radiated into  
the sun, and it is the coldest of  
planets, the temperature never go-  
ing above zero, and at night being  
over 200 below. There being no at-  
mosphere, when one stepped into the  
shadow of a rock he would immediately  
become invisible. No sound could  
possibly be heard on the moon, be-  
cause of no medium to carry it.

The mass of the moon being so  
small, the force of gravity is small,  
and one's ordinary step would be  
over 15 feet. A good baseball player  
could hit a ball over a mile with ease.  
A hundred and fifty-pound man would  
weigh only 25 pounds on the moon.  
Only one side of the moon has ever  
been seen by people on the earth, as  
it revolves exactly once when it goes  
round the earth. Many speculations  
are as to the appearance of the other  
side; but there is no way of obtain-  
ing any positive information. On ac-  
count of what is known as "Sta-  
tion," though, we glimpse four-  
sevenths of its surface.

The mountains on the moon are  
found to be much taller than our  
mountains, many of them reaching  
over 10,000 feet. As the moon is  
so close to us—about 240,000 miles  
—comparatively small objects can be  
seen by people on the earth, and  
it revolves exactly once when it goes  
round the earth. Many speculations  
are as to the appearance of the other  
side; but there is no way of obtain-  
ing any positive information. On ac-

**A CANINE BEAUTY PARLOR.**

London Establishment Which is a  
Model of Elegance and Luxury.

There is in London a beauty parlor  
for dogs which is greatly patronized  
by the pet of the leisure class. This  
place, the Salon de Beauté, is ap-  
pointed in a style befitting the class of  
dog whose patronage is sought. An ar-  
tistic and comfortable reception room  
is first entered. It is bright and cheer-  
ful of appearance. There is nothing  
in the house but the most delicate  
of the most delicate nerves from a  
drawing room in which he might be  
paying an accustomed social visit.  
The walls are covered with art paper  
since, if they were colored in distem-  
per, his health might be affected by  
suggestion. There are soft cushions  
on the chairs. The trained nurse in  
nurse's uniform has a soft voice and  
a sympathetic smile.

A door from the reception room  
leads to the salon, where the first im-  
pression is that of a reception room  
light and air and perfect hygienic  
conditions. In the centre is an Ameri-  
can style dog table, and the walls are  
covered in a marble bath with hot  
and cold water and several kinds  
of perfumed lotions make the bath  
and shampoo a pleasant preliminary ex-  
ercise.

After the bath the patient is first  
carefully wiped with soft, warm  
towels, and then the hair is made  
to be electrically dried. An Ameri-  
can apparatus accomplishes this.  
An electrically driven fan in com-  
bination with a gas burner sends out  
from the wide nozzle of a flexible  
hose a stream of warm, dry air, which  
only slightly warms the drying  
process, but gives a delightfully  
satisfying sensation.

When the dog's coat is quite dry, it  
is combed and brushed, and, if neces-  
sary, curled. On a shelf above the  
patient, the bottles containing the  
hair tonics, lotions, beauty creams  
and perfumes. The trained nurse  
denies to Saturday, the 31st day  
of an hour a little Perkins or  
other toy lap dog looks at himself in  
the glass, and is surprised at his own  
perfection, and his mistress, having  
finished her shopping, returns to  
find him not only more beautiful,  
but more charming and delightful be-  
cause of the human effect which the  
consciousness of his improved ap-  
pearance has on his spirit and temper.

**Revered the Verdict.**

A prominent citizen of a large town  
went raging into the electric light  
office, and when he had seen that  
one of their wires had killed a pet  
tree on his premises.

"That tree," said he, "has been  
standing there for twenty years, and  
we regarded it as one of my family.  
My children played under it when  
they were babies, and it is associated  
with some of the pleasantest mem-  
ories of my life. When it began to  
lean, I noticed it, and I was so dis-  
tressed that I wrote you a letter  
about it. I noticed that a wire was  
lying right across the branch. My poor  
tree has been electrocuted, and I feel  
as if murder had been done in my  
backyard."

Considerably moved, the agent of  
the company went to view the scene  
of the tragedy, and found the tree  
still alive, but feeble. When he came  
to trace the wire he discovered one  
of the electricians had cut the wire  
and the other twisted around a dis-  
carded pole. It had been cut off for  
at least two years and forgotten. But  
the occasion demanded something, so  
he made the following report:

"Tree alive; wire dead. Wire evi-  
dently killed by tree. Bill enclosed."

**The Art of Being Happy.**

"Cheerfulness," says Ruskin, "is as  
natural to the heart of man in strong  
health as glow to the cheek, and where-  
ever the heart is healthy, his face  
must be either bad air, unwholesome  
food, improperly severe labor or er-  
ring habits of mind. If we do not  
taught that one of the great life du-  
ties is to unfold the fun-loving side of  
the human mind, the humorless world  
would not be so many suicides, so  
many unhappy, discordant, miserable  
people, so many failures in the world.  
Why shouldn't we develop the humor  
factor, the fun-loving faculty, just  
as we develop the serious side of our  
any other faculty? Why should we think  
it is so very necessary to spend years  
in the study of the human mind, and  
develop other mental faculties and yet  
leave practically no pains whatever to  
develop the humorous, the fun-loving  
side of our nature?"

**In Society.**

A man requires a certain amount of  
tact to behave nicely to his wife in  
society. He should find out how to  
look after her without hanging on to  
her too much. It looks bourgeois for  
a husband and wife to keep together  
in a room, and it is better for them  
to separate directly they get inside a  
room and make themselves pleasant  
in general society. If a husband should  
not take his wife down to supper if  
he can help it, but he should try to  
be sociable in the dining room, and  
be seen that some one else is looking  
after his wife. He should remember  
never to precede her. The wife enters  
a room first and shakes hands with  
her hostess; her daughters come next  
and the husband last. "Bouquet up  
to date."

**Scared Him.**

During the week Brother Getti had  
knifed Mr. Lamby in a stock deal,  
had foreclosed a mortgage on his  
house, evicted him and demanded note  
and attached his personal property.  
Sunday morning Mr. Lamby went to  
church, thinking to hear something  
that would make his heart more  
peaceful. After the service Brother  
Getti came to him, grasped him  
warmly by the hand and asked him  
what condition his immortal soul was  
in.

"Are you thinking of foreclosing on  
that, too?" asked Mr. Lamby desper-  
ately.

**Turkey's Trade.**

The total exports of turkey annu-  
ally amount to about \$70,000,000,  
and the imports to \$110,000,000.

**P. E. Kent & Co.**  
GENERAL CONTRACTORS.

**Phosphonal, the Electric  
Restorer for Men**

restores every nerve in the body to its  
proper tension; restores vigor and vital-  
ity. Premature decay and all sexual  
weakness averted at once. PHOS-  
PHONOL will make you a new man.

## LOCAL & GENERAL.

The regular meeting of the Sons of England will be held to-night.

The Methodist Church will start special services on November 13th.

Major Woolley-Dod, of Calgary, was visiting Mr. Lloyd-Williams last week.

Mrs. Gordon Armstrong, of Edmonton, is in Winnipeg, where she was called owing to the death of her father.

The Indian Industrial School opened Monday last with forty pupils in attendance. More will arrive in a few days.

A talent tea and sale of homemade cooking will be held at Mrs. Jarvis store on Saturday afternoon, Sept. 24, from 3 to 6.

John Collins opened up a restaurant at his store, two doors west of the Lyric, yesterday. Meals at all hours. Give him a trial.

Miss Carrie Samson has returned to her home in Windsor, Mills, Quebec, after spending two weeks with her aunt Mrs. Dutton, and cousin Arthur Dutton.

Mr. E. R. D. Porter, manager of the Merchants Bank at Fox Coulee, was in Red Deer last week on his way to spend holidays with his people in Medicine Hat.

The Ladies' Aid of the Baptist Church will hold their sale of work in the basement of the church on October 4th, afternoon from 2 to 5 p.m. Refreshments will be served.

An enlargement of the only true likeness of our Saviour, taken from one cut on an emerald by command of Tiberius Caesar, and was given by the treasury of Constantinople to the Emperor of the Turks to P. Innocent VIII. Can be bought at Percy Griffin's Store.

The Red Deer Citizens' Band have a treat in store for the citizens of Red Deer on the night of November 21st having engaged the Royal Welsh Ladies' Choir, now touring Canada, to give a performance at the Opera House filled to the doors, and trusts that other organizations will protect the date mentioned by not bringing on other attractions for that evening November 21st.

Laura, the youngest daughter of Mr. and Mrs. R. E. Fiske, of Hillsdown, aged five years, was taken by her parents to the Memorial Hospital at Sunday evening suffering with a stoppage of the bowels. The little sufferer was relieved by a major operation on Monday morning. It is hoped she will now recover without a further operation and the anxious parents are awaiting results. Mrs. Fiske remains with her.

LATER—The little sufferer died yesterday afternoon, the supposition being that the shock to her system was too great. The body was taken to Stone's undertaking parlors prepared for burial and the funeral will take place from the family residence Hillsdown to the Hillsdown burying ground to-morrow. Mr. and Mrs. Fiske have the sympathy of all in their sorrow.

Rev. Mr. Washburn, of Millbank, Ont., preached in St. Luke's church Sunday evening last to a good congregation. Mr. Washburn, who is a brother of our noted baseball pitcher here, we understand, accepted a call to Wetsakawing. It is to be regretted that arrangements were not sooner made as many were not aware that he would take the service.

Rev. Mr. Wilkinson, who had conducted the services in St. Luke's church during Rev. C. W. G. Moore's absence in England will conclude his services next Sunday, as Mr. Moore will return next week. While the congregation will be pleased at Mr. Moore's return, they will regret the departure of Mr. Wilkinson who has made many warm friends while in town.

### YOUR DOCTOR WILL TELL YOU

that in a large number of cases nervousness, headaches, sleeplessness, dizziness, etc., are caused by eye strain.

Nothing will effect a permanent cure that does not remove the cause.

Scientifically fitted glasses will remove the cause and effect a permanent cure. It is my business to do this. Come and see

H. H. GAETZ, Optician.

The Gaetz-Cornett Drug & Book Co., Ltd.

Sunny Alberta.  
Absolutely perfect weather.  
Council meets to-morrow night.  
Farmers are all busy as nailers.  
Geoffrey Alford is now out of danger.  
A. F. Botsford has his auto in fighting trim now.  
The concrete walks will likely be completed this week.  
Remember the Hospital Benefit to be held in the Oddfellows' hall on Thursday evening, Sept. 29. Tickets 50 cents.

### Red Deer District Methodist Church.

The financial District meeting of the Red Deer District was opened at 10:15 on Tuesday night the 13th of September. A Missionary Convention organized by the energetic pastor Rev. H. J. Munton providing the following programme:

"The present Missionary question the Crisis of the Church," by Rev. G. H. Huestis, M.A., ex-president of the Conference and chairman of the Red Deer district.

"The Compulsive Force of Missions," by Rev. A. Bower, director of the Indian Industrial School, Red Deer.

"The Result of a World-wide Movement Christward," by Rev. T. A. Bowen.

"The Sustaining Force of Missions," by Rev. H. B. Munton.

The meeting proved to be a very inspiring occasion. The addresses by the members of the District formed a good foundation for a stirring speech by the Rev. T. A. Bateman, who will shortly sail for China as Missionary in Chief.

On Wednesday the business of the District was taken up. Eight Ministers and probationers and five lay representatives answered to their names. The Penhold mission assumed self support while there was promise of substantial advance in financial support on several missions.

The Rev. T. Manning's suggestion was adopted and the 13th, 20th and 27th of November were set apart for special effort on behalf of Missions.

The following appointments were made for the special effort: Red Deer, F. E. Davies; Springfield, T. Ferrier; Coakbanks, T. A. Bowen; Penhold, H. J. Munton; Markerville, C. Waring; Innisfail, J. Place; Ravenna, G. C. Pugh; Kinsella Valley, Lakeview Supply; Lakeview, J. E. Ratcliffe; Bowden, C. H. Huestis.

The Educational and Temperance meetings were in each case left to local arrangements.

When the question of the development of Spiritual Life on the district came up the discussion was a general inspiration to find that in almost every case the Pastors had anticipated the occasion by previous plans for an aggressive evangelistic campaign.

The Chairman introduced the action of the General Conference regarding the "Footnote" and in a very clear manner showed the members of the District that instead of removing, by means of the action of the General Conference, any objection on the part of the church to its members engaging in questionable practices; the object had been intensified and the appeal made on a higher plane, namely, individual's loyalty to Jesus Christ.

He recommended the men to take an early opportunity of presenting this matter to all the congregations.

A very helpful discussion of the Church Union question then ensued showing in its spirit the unanimous favorable attitude of all present.

After the adjournment which took place at 3 p.m. the ladies of the church served an ample lunch to the members of the District and upon motion a hearty vote of thanks was tendered to all who had shown so much interest in making the s.j.urn in Innisfail pleasant and profitable.

CONGREGATIONS—QUESTION OF EDUCATION

In an interview with the Madrid correspondent of the London Telegraph, Prime Minister Canalejas claimed that the entire world of culture and progress had expressed its sympathy with Spain, and welcomed her into the ranks of progressive nations. In this was the justification of the government, which would realize its aim without a general strike or civil war. The latter was a booby in which no Spanish politician believed. The government had an overwhelming majority in the country, and therefore he could say that the status quo was doomed.

The Premier added: "Come what may, that shall go. Personally, I have resolved to combat it."

Religious Congregations.

"The question of the religious congregations shall be dealt with separately. The women are possibly allowed to continue to play the important part in public life without public responsibility or control, which they are playing to-day. I say nothing against them as religious communities. I am ready to admit they have served useful functions in other spheres also, but their fitness for administering the requirements of the present or future has vanished. Yet their activity knows no limits. They constitute an absolute institution in a limited monarchy. This anomaly must be done away with. Every institution, even the king, has well-defined limits."

"We must fix the limits of the power of the concentration of acting property, and establish forms for facilitating state control. Moreover, we cannot allow the Catholic or other religious bodies to educate the nation. It is not the function of any religious body."

### Wedding Bells.

MacKINNON-JAMIESON

The wedding of William Laughlin MacKinnon, of the W. E. Lord Co's. store, to Marion Ethel Jamieson, youngest daughter of Mr. and Mrs. Henry Jamieson, took place at the family residence on Wednesday afternoon last, the bride's father giving her away.

The wedding event was favored with delightful weather, and the hospitable home, in its decoration of foliage and bloom, reflected the autumn hues of Nature spread over the countryside. Rev. W. G. Brown performed the ceremony at four o'clock.

Mrs. Picie, of Calgary, the bride's sister playing Lohengrin's bridal chorus. The bride looked charming in a dress of cream silk repp trimmed with white point de esprit, buttons and braid, and wore a modish hat of red lace and white plumes.

She also carried bridal roses and wore a pearl necklace, the gift of the groom. She was attended by her little nieces, Jean and May McKee, of Morley, B.C., as flower girls, wearing hand embroidered linen dresses and carrying baskets of white roses, roses and lilies. Mrs. Picie was attired in a beautiful costume of old rose silk. The groom's gift to the flower girls were pearl rings.

After the ceremony the wedding party, which comprised members of the two families, drove to luncheon, the two unique table centres being birch bark canoes on glass Mirrors profusely filled with exquisite flowers, trimmed with panicles, making a very pretty floral effect.

Mr. and Mrs. MacKinnon left on the evening train for Edmonton with the usual accompaniments at the station. The bride's travelling dress was of navy blue broadcloth with tulle to match. On their return they will take up their residence on Fifth St. North.

Both bride and bridegroom are not only very highly esteemed personally for their sterling character and kindly service, but they are members of two of the most highly respected families of Red Deer and, as such, will carry with them the heartiest of good wishes for their future happiness.

### A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway Telegraphy. Since an eight-hour law became operative, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay from \$70 to \$80 per month, with good chance of advancement.

The National Telegraph Institute operates six official institutes in America, and the Institute of R. B. Webb, Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Davenport, Ia., Cincinnati, O., Port land, Ore., or Memphis, Tenn.

At the Memorial Hospital, Tuesday September 20, 1910, Laura, youngest daughter of Mr. and Mrs. R. E. Fiske, of Hillsdown, aged 5 years, (funeral, Thursday afternoon at Hillsdown).

"The Lord gave, and the Lord hath taken away, blessed be the name of the Lord."

### Death After a Scratch.

Morris Quatman, an eleven-year-old Windsor boy, fell off his bicycle and scratched his wrist.

He thought nothing of the injury, but blood poison set in and he is dead. Such incidents as these — by no means infrequent — ought to make people realize the danger that may lie even in the smallest flesh wound.

Take a simple illustration. When a knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn, scratches the hand, the latter is inoculated with germs, of which the air about us is full. Directly these germs are introduced through the breach in the skin, a battle royal ensues between them, and certain organisms in blood.

The way to avoid serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful, yet painless germ-killer, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and inflammation.

As soon as applied to a sore or cut, Zam-Buk stops the pain and smarting. That is why it is so popular with children.

The flesh thus soothed and purified, the wound is made perfectly healthy, and all poison and cause of festering removed. Having done this Zam-Buk then proceeds to heal the wound or sore, and new healthy tissue is built up in a quick, painless and perfect manner.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a unique preparation, possessing antiseptic, soothing and healing qualities that are not to be found together in any other preparation.

It is not only a unique healing balm but it is also a skin food. For all skin diseases and injuries — cuts, bruises, burns, eczema, chafing, ulcers, ringworm, etc., it is without equal. It is also used widely for piles, for which it may be regarded as a specific. All druggists and stores sell at 50 cents a box, or post free from Zam-Buk Co., Toronto, for price. Harmful imitations should be always refused.

IN MEMORIAM.  
SLEATH—On the 21st September, 1908, at Red Deer, Western Canada, Clara Annis, the dearly loved wife of John Sleath. In indelible remembrance. "Not dead, but sleeping."

SLEATH—In ever loving memory of our dear mamma, who died on the 21st September, 1908. Interred at Red Deer, Canada, 23rd Sept. "Maud and Dorothy."

"Oh, for the touch of a vanished hand, And the sound of a voice that is still."

\$15.00 A WEEK AND EXPENSES.  
For man or lady to travel and appoint agents for established house. State age and previous employment. Permanent. E. McGarvey, Mgr., 292 Wellington Street, West, Toronto.
